

Come work in beautiful Vancouver this summer! The Blue team at Westside Midwives is seeking locum coverage. Start date is negotiable, 2-3 months available. Can start mid July or beginning of August until end of September/mid October.

We work as a team of 4, with 24hr call shifts and good flexibility to book time off. We have excellent relationships with our teammates and enjoy working with one another to provide kind, evidence-based, individualized care. We enjoy our clients, and take care of a range of different people including many university students and working professionals. We tend to have more medically complex clients than the typical midwifery practice.

We have great support from our two MOAs. We use OSCAR EMR for charting and experience with e-charting is preferred. We are based near Jericho Beach in Vancouver, need we say more?! We have hospital privileges at BC Women's Hospital. Billings are split equally with reasonable clinic fees. We book an average of 13 clients for those months.

The schedule is worked out together to optimize everyone's wishes. For the right candidate, we may be able to extend the position. Conversely, if you are interested but not available the whole time, we may be able to consider a shorter period.

Please direct inquiries and/or submit your CV to Marella Falat. Applications will be considered until the position is filled.

Cheers!

Marella Falat RM, Jasmine Freed RM, Thea Parkin RM and Lena Rowat RM
